Meet our groomers

At Woof Gang Bakery, deep love of animals is the foundation of what makes our groomers so extraordinary. Each followed a calling and went into dog grooming to express their love, creativity, and true expertise with pups of all ages, sizes, and needs. From nail clipping and hand scissor techniques to removing matted hair to coloring and large-breed management, our groomers are the best in the field. We also have professional groomers available to help train those that might need a little help perfecting their grooming skills. Our groomers are committed to all pets' health, well-being, and care. And now you can be too. So, apply and love what we do every day!

We embrace diversity and inclusion

All team members respect each other, our guests, and our furry little friends. Our workplace offers a safe and caring environment where we put our groomers and team members first. We believe in quality over quantity and never hold our groomers to quotas. We believe that building relationships is the key to success. Relationships with our groomers foster respect, professional growth, and relationships with our guests and the local community. As a result, we hold several national awards for high-quality grooming. We are also a locally owned franchise business with strong community connections.
